The sediment clean-up levels for the Lower Passaic River are still being developed, based on human health and ecological risk assessments, so I'm afraid I can't provide you with that information at this time.

Subject: Dioxin Cleanup Criteria

Alice,

You are the contact person for the Passaic River cleanup activities. Could you please tell me what the cleanup criteria is for 2,3,7,8-TCDD in sediment and/or soil? If you have a value for total equivalence (TEQ), then please provide that also.

Thank you,

Jack Cleary
